

Eugene Siebert
Sophomore
Middle Tennessee State University
Computer Engineering Technology

Faculty Advisor:
Saleh M. Sbenaty

Research Alliance in Math & Science

6es@ornl.gov
eks2f@mtsu.edu

Research Area: Computational Science and Engineering

Perform research on issues related to the High Flux Isotope Reactor (HFIR) and implement reliability centered maintenance program (RCM) for its plant reactor coolant system, and will perform system information and failure analysis for equipment at ORNL.

Research Mentor:
Mark Allen Linn
Physical Sciences Directorate
Research Reactors Division
E S H & Q, ESH&Q Safety Analysis
Oak Ridge National Laboratory
