

Selima Rollins
Senior
City University of New York -
York College
Major: Information Systems
Management

Faculty Advisor:
Dr. Michaelangelo Salcedo

Program:
Research Alliance for Minorities

Email: rollinss@ornl.gov
Home: mjrkira@aol.com

Research Area:

Perform research on scalability issues related to high-performance cluster computing and have the opportunity to perform scalable cluster administration tasks on the various clusters available at ORNL.

This summer I will be working in the Computer Science and Mathematics Division, in the Network and Cluster Computing department. My mentor is Thomas Naughton, along with John Mugler and Stephen Scott. My project is to use API Test to rewrite, update and write programs to test individual applications in OSCAR that will be used in current and future versions of OSCAR.

Research Mentor:

Stephen Scott, Ph.D.
