Hi Bill,

#You may already have been contacted individually by Grant Miller, but
#if not, could you please send me your preliminary break-out reports
#(no matter how rough you think they are). He needs them ASAP (COB
#today if possible) for something.

The material from the Seattle security breakout group is available at

<http://www.uoregon.edu/~joe/nitrd/>

Please note, however, that at least one participant in my group, Karl Levitt from NSF, has been out for the recent religious holidays, and will likely be forwarding additional material in the days ahead, and there are other additional materials we still need to write up.

Regards,

Joe
