SOS 18 Conference, St. Moritz, Switzerland
March 17-20th 2014

Are you ready for the leap into future?

- Commodity is everywhere in supercomputing

- Are we still on track for exascale in 2018?

- HPC community is challenged by new programming models / architectures

- Did we loose track of the purpose?

Supercomputers as scientific instruments

- What & who should drive their development?

- General purpose vs. appliance

- Standalone infrastructure vs. integration with experimental facilities

- The many dimensions of software, and sustainable development

The Venue - Hotel Laudinella St. Moritz

Getting to St. Moritz

- Flights to Zurich Airport

- Rail connection from Zurich Airport:

  Travel time 3h45min
  Zurich Airport - Zurich main station ~10 min
